THE PHILIPPINES

The Philippines Islands became a Spanish colony during the 16th century. They were ceded to the United States in 1898 following the Spanish-American War. In 1935 the Philippines became a self-governing commonwealth. In 1942, the islands fell under Japanese occupation during World War II and U.S. Forces and Filipinos fought together during 1944 - 1945 to regain control. On 4th of July in 1946, the Republic of the Philippines attained its independence from the United States.

For this reason, Philippine culture is combination of Eastern and Western cultures and also displays significant amount of Spanish and American influences. Filipino and English are the official languages; Filipino is a standardized version of Tagalog which is spoken mainly in Metro Manila and other urban regions. Both Filipino and English are used in government, education, print broadcast media and business.

HELP EDUCATION SYSTEM

HELP has unique classes and structure for Sparta System.

Morning Reading Class

The Morning Reading Class (MRC) is a structured reading activity that aims to expose students to various perspectives on complex topics and help them practice analyzing the concept of point of view. The class includes activities such as improving pronunciation, intonation, blending, speed reading, fluency, shadowing, and vocabulary. By participating in these activities, students can develop crucial skills for reading and language learning, and improve their comprehension and communication abilities.

Small Group Classes

This small group class is designed for students to improve their English language skills in grammar, pronunciation, speaking, and vocabulary. The class aims to help students overcome their fears and doubts about speaking English, enabling them to gain confidence and proficiency in using it as a second language. The class will focus on speaking fluently, expanding vocabulary, understanding grammar, and correcting pronunciation errors with the help of the teacher.

Mandatory Self-Study

In the self-study technique, students manage their own learning outside the classroom and without any supervision. The kids are required and encouraged to do this task so they can reflect on the teachings they learned throughout the day. Since they are performing the self-study independently, this activity also gives students the freedom to select the subjects they wish to learn more about and to learn in the manner they like.

Individual Classes

With the help of our qualified teachers, four target skills are to be taught; Speaking, Listening, Writing, and Reading. During an ESL/Test Courses class, students are engaged in a series of activities and exercises that act as building blocks. Step by step, students apply the four target skills learned in previous classes to the challenges in each new session.

Special Class

This class is designed to help students to improve their spoken English skills, with a focus on pronunciation, vocabulary, conversation skills, fluency, and confidence building. In this class, each month, you can expect to participate in various activities that complement your one-on-one learning experience, and you have the freedom to choose your preferred learning approach according to your individual needs. The class takes place in the afternoon at 5:00 pm.

Vocabulary Test

Students must recall and comprehend 20 words per day from Monday to Thursday by having through the vocabulary test. On the student's first day, the school will give them the required daily materials. Students will have the chance to pick up new vocabulary in this activity, which will also help them grasp it better and apply it to their daily lives.

HELP EDUCATION SYSTEM

HELP has unique classes and structure for Sparta System.

Daily Schedule

The schedule is for Monday to Friday, there is no class at the weekend. The schedule can be adjusted.

Students will take placement test at the first day, then take Qualifying tests every 4 weeks.
